DETAILED ACTION

Specification

The specification is objected to because the status of parent application has not been updated. Correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 13 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claim 13 recites mere arrangement of non-functional data that does not exhibit any functional interrelationship with the way in which computing processes are performed. Therefore, such descriptive material is considered non-statutory subject matter because it does not constitute a statutory manufacture, process, machine or composition of matter.
